

# Country Garden Greenhouse

## Evening Fragrance Toloache

(Angel's trumpet; Indian apple) By traditional breeding this long time Mexican hallucinogen is now remade as a beautiful garden plant! It has huge trumpet flowers 20cm (8") long, 10-15cm (4-6") across, pure white with a lavender edge, and deeply fragrant in the evenings. Suited as a summer annual for outdoor planters on sheltered patios or corners near the house. Ht. 120cm/4ft
