

Organic Chamomile-Fair Trade

An all-around classic—
lovely and gentle.

One of the most widely used and well-loved herbs of the world, we adore chamomile for its mildly bittersweet, flowery taste and its ability to soothe and calm the body, mind and spirit.*
Our chamomile is a cut above the common chamomile you'll find in most teas. Made from only the white and yellow, tiny, daisy-like flowers (no stems and leaves here), we think of our chamomile tea as a cup of peaceful, easy feelings—plain and simple.
